

**CASI Central | Spring 2017 | Volume 5**  
**Proposed Accessibility Guidelines for Pedestrian Facilities**  
**in the Public Right-of-Way (PROWAG) by Juliet Shultz**

## **US ACCESS BOARD**

### **PROPOSED ACCESSIBILITY GUIDELINES FOR PEDESTRIAN FACILITIES**

The Proposed Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way (PROWAG) are currently recognized best practice for accessible design in the public right-of-way.

In this session, the guidelines for pedestrian access routes within sidewalks, shared use paths, curb ramps and street crossings will be presented.

This session will include a discussion of frequently asked PROWAG interpretation questions, and an update on the status of the rulemaking process.

**SPEAKER: Juliet Shultz**

*Transportation Engineer*

Office of Technical and Information Services

Juliet Shultz currently serves as Transportation Systems Engineer in the Board's Office of Technical and Information Services (OTIS). She has 15 years of experience in transportation planning and engineering for state government. Most recently, she served as the DA Policy Engineer at the Illinois Department of Transportation where she led development and implementation of the department's ADA transition plan and served as the department's accessibility expert, providing technical assistance and reviewing plans for state projects. She is a member of the Transportation Research Board Standing Committee on Paratransit and previously was a member of the Illinois Accessibility Code Revision Committee which was tasked with revising the Illinois Accessibility Code.
